

Barbados Travel Protocols

Updated 9 October 2020, effective 16 October 2020

The protocols as outlined here apply to arrivals from the UK (eg a 'High Risk' country of origin as categorized by the Barbados Ministry of Health and Wellness)

ROYAL
WESTMORELAND
BARBADOS

Please find below a timeline that you should expect to follow:-

1

Take an approved Covid-19 PCR test. This should be taken a maximum of 3 days before arrival in Barbados. Timing is important and will be checked.

NOTE: home testing is not acceptable. Price and turnaround time depends on location in the UK.

2

Review the options for your second Covid-19 PCR test in the Travel Protocols - save these on your phone or print a copy. Early booking is recommended. (Two options are offered – Government testing free of charge or private testing which is chargeable).

The second test can be taken 4-5 days following the first test (taken in the UK).

Tests at a Government facility are free and needs to be booked by the traveller. Private tests in accommodation could be booked by us and cost GBP270 per person (about \$700BDS) carried out by Sandy Crest Medical Centre.

Prior to flight, complete online pre-arrival customs and immigration information and upload negative test results <https://travelform.gov.bb/home>.

Once it has been submitted you will receive by email one barcode per person for immigration and one barcode for the party for customs – save these on your phone to show at the airport.

3

Arrive at Grantley Adams International Airport. We can arrange for a VIP Fast Track service who will meet you off the plane and provide fast track access through the various official checks eg. Health, Immigration and Customs.

This is highly recommended. **Included within our Elite Package offering, GBP45 per person (about \$120BDS) otherwise.**

4

Take an approved transfer directly to Royal Westmoreland. Again, we can arrange this and you should be safe in the knowledge that drivers have undergone specific Covid protocol training.

5

Check directly into the villa. You will need to remain in your accommodation until you receive a negative test result for your second test. It is fine to enjoy the private pool and terrace. We have a Take-Away delivery service. We can also pre-deliver groceries etc. Again, please contact Guest Services.

Unfortunately communal facilities such as the Golf Course, Gym, Clubhouse etc will be unavailable to you at this point. The protocols require a Security Guard to be positioned outside of your individual villa or for the property to be covered by CCTV monitored by an external contractor.

Where possible your accommodation will have remotely monitored CCTV. The cost of monitoring is covered for the period of 'Restricted movement'. If a guard or additional monitoring is required this will be chargeable.

6

Take Approved Transportation to and from testing centre for second Covid-19 PCR test (Alternatively in-accommodation private testing can be arranged).

Guest Services can arrange this for you, the cost will vary depending on location of testing centre. In-accommodation testing negates the need for this.

7

Await results of test. Once a negative result received (sent directly to you by email, generally within 24hrs) you are able to enjoy full access to the resort as well as our beautiful island.

Based on Barbados Travel Protocols updated 9 October 2020, in effect from 16 October 2020. These protocols are updated frequently to reflect the changing situation around the world. For the latest version please visit www.barbadostravelprotocols.com
