

PCR Test

Updated October, 2020

BARBADOS[®]

UK | Private PCR Test

Clinics:

- There are express tests available for the sole purpose of travel, results are usually received within 48 hours.
- Users attend a private clinic at a select number of clinics for a professional to take a sample and to give you results in a timely manner.
- Appointments are subject to availability and users will have to find a clinic themselves offering this service.
- Private PCR Tests are available online for an average cost of: £180 per test.

- **The specimen type from the test taken MUST BE Oropharyngeal (throat) and, Nasopharyngeal (nose).**
- **Home Test Results are NOT accepted in Barbados!**
- **Proof of your in clinic test appointment (3-days before arriving) and negative test results MUST BE presented to be allowed entry into Barbados.**

This data was collated to assist, future travellers having difficulty, identifying a test centre in their area. Please note that the Barbados Tourism Marketing Inc. cannot guarantee, nor is it responsible for the quality of the service and the delivery of results, at the test centres listed in this document.
